photocopies of actual product samples. Applicant respectfully requests that the two entries be initialed on the Form 1449, indicating that the references have been considered. If further information is needed concerning these references, the Examiner is invited to contact the undersigned.

Applicant hereby specifically reserves the right to prosecute claims of different or broader scope in a continuation or divisional application. The Examiner should infer no (i) adoption of a position with respect to patentability, (ii) change in the Applicant's position with respect to any claim or subject matter of the invention, or (iii) acquiescence in any way to any position taken by the Examiner, based on such amendments. It is believed that all of the pending claims have been addressed. However, the absence of a reply to a specific rejection, issue or comment does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above may not be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper, and the amendment of any claim does not signify concession of unpatentability of the claim prior to its amendment.

No fee is believed to be due at this time. If necessary, please apply any charges or credits to deposit account 06-1050.

Respectfully submitted,
